

EMPOWERING WOMEN AND GIRLS

October 2015 – September 2020 | Every Last One Campaign

SUMMARY

Thanks to you, in the last five years, more than **10 million women and girls** have benefited from programs that are enabling them to live safer, healthier, and more productive lives.

Your support is helping women and girls overcome the barriers that keep them from productive and positive lives.

World Vision has earned the trust of thousands of communities because of our long-term approach. We cover all of the biggest obstacles that hold girls and women in poverty back—not just one.

Women and girls in poverty are disproportionately impacted, especially in emergencies.

Our ongoing large-scale programs are foundational to World Vision’s ability to respond rapidly, effectively, and efficiently.

World Vision was able to initiate a global response just one hour after COVID-19 was declared a pandemic on March 11, 2020. With our global positioning, expertise, and long-term relationships with communities and partners, we’re responding to COVID-19 in nearly 100 countries, providing relief assistance to 58 million people, including more than 30 million women and girls.

We must continue to address the disproportionate impact on women and girls that has been made worse by COVID-19.

“Creating environments for rightful relationships between girls and boys and women and men is the path to long-term, sustainable change that will end extreme poverty.”

—Edgar Sandoval Sr., President and CEO of World Vision U.S.

9,460,328

women and girls gained access to **clean water** close to home, significantly reducing the time they spend walking and hauling water.

1,178,874

women and girls benefited from programs that **challenged harmful cultural norms** such as child marriage, educated community members, and increased protection.

1,045,210

women gained access to **financial services**, savings groups, agricultural training, technology, and markets.

434,817

women of child-bearing age gained access to **maternal and child health** and nutrition services.

13,401

women and girls benefited from **education** programs including literacy, life skills, livelihoods training, early childhood development, and investments in safe schools.
